## **MathMastery Picks School Town**

*School Town delivers MathMastery content in a safe, engaging, collaborative, student-centered environment.*

**Chicago, IL** – September 23, 2009 – MathMastery, a web-based education publisher of math and science supplemental courses has selected School Town to deliver its content in a safe engaging collaborative student centered environment.

School Town is a new online learning platform designed specifically for K-12 with collaboration and organizational tools for students, efficiency for teachers, and classroom transparency for parents. MathMastery is a leading website dedicated to helping students, teachers and parents learn, practice, and understand essential math skills in second through eighth grades. The parties have teamed to launch a highly engaging joint solution with collaboration, assessment, and improved instructional outcomes.

School Town's online learning platform engages students in active learning and empowers teachers to accomplish differentiated instruction and it integrates MathMastery's product suite with a single log in. Through the partnership, School Town and MathMastery foster self-directed learning and empower teachers to deliver engaging personalized assignments, student self assessments and safe collaboration. Parents access the parent portal to see their child's assignments and performance.

School Town allows teachers to create assignments linking to MathMastery content and resources. Assignments can be differentiated at both group and individual levels. This integrated solution is easy to use and saves teaching time. Students log into School Town to access assignments with MathMastery resources from anywhere. Students submit their work with comments and information on how difficult the project was for them to complete. Students safely interact with their teacher and securely collaborate with other students in their classroom.

The partnership allows teachers to easily assign any MathMastery content in the School Town platform.

## For Immediate Release

For over twenty years MathMastery has developed engaging and instructionally sound math and science programs for the classroom. Over 800 school systems and thousands of schools have used the Core Concepts in Science and Mathematics programs. Schools using the programs have reported dramatic increases in student achievement. Independent research studies consistently have validated the programs instructional content design and effectiveness. To learn more about MathMastery, please visit <http://www.mathmastery.com>

### About School Town

School Town is a blended learning environment that connects teachers, students, and parents. The flexible platform adds value in many ways by offering:

- Professional development communities for teachers
- Digital classrooms to engage students in learning outside of the physical classroom
- Home connections so parents can be involved in their child's education

School Town teachers easily create digital classrooms to deliver any curriculum, personalize learning, and unify resources with secure Web 2.0 tools for student collaboration. School Town helps educators move the needle on student achievement and build strong home-school connections.
